

PELICAN BAY STATE PRISON
SECURITY HOUSING UNIT
UNIT D-6

No. J-84086

NAME: BRUCE

Comment: 15 day ASU extension from today's date to complete casework concerns noted here-in. ICC action of 3/10/04 requested a 90 day ASU extension to complete the integrity of an ongoing investigation into conspiracy to assault staff. CDC 114D dated 2/29/04 indicates ASU placement is based on an allegation of conspiracy to assault staff and refers to supporting confidential document dated 2/29/04 authored by C/O Patten. As of this CSR review, there is no confidential information in the file related to the inmate's possible involvement in a conspiracy to assault staff, nor was a confidential document authored by C/O Patten found in the central file. Staff to clarify the basis for ASU placement, ensure the CDC 114D and CDC 1030s reflect correct information, and ensure confidential documents used as the basis of ASU placement are available in the central file.

Other Casework follow-up: Confidential memo dated 2/29/04 needs review for appropriateness of the listed enemy, noting the informational nature of the memo.

Return to CSR no later than 4/9/2004 with status update.
